I am hoping for some practical methods or a reliable photo recovery Mac application to recover as many of these photos as possible.. An intuitive software solution for setting up a photo booth during live events, dslrBooth Professional Mac Edition is an expanded version that allows you to customize print sizes, seamlessly share photos, utilize live view, and replace backgrounds, in addition to simply running an automated photo booth for guests to enjoy.. No matter why your pictures get lost or deleted, they are still on your Macbook.. However, a reliable and safe Mac photo recovery application makes it much easier and least time-consuming.
